

2019 Illinois MS4 Implementation Seminar

The Illinois Water Environment Association (IWEA), Environmental & Water Resources Institute (EWRI), and APWA Suburban Branch are pleased to invite you to this half-day seminar on Illinois Municipal Separate Storm Sewer System (MS4) program implementation.

The 2019 Illinois MS4 Implementation Seminar will focus on meeting permit requirements with limited resources, overcoming implementation challenges, examples from other communities, tailoring program activities to address local water quality goals, permit waivers, and the future of program requirements. Interactive sessions include addressing TMDLs within MS4 programs, future implementation measures, and input on the current and next draft Illinois MS4 permit.

Who should attend? *Municipal employees and consultants who work with municipalities to implement their ILR40 NPDES MS4 permit – required by Illinois municipalities that own and operate a separate storm sewer system.*

DATE: March 7, 2019
