

EXCELLENCE IN SNOW AND ICE CONTROL AWARD

Purpose The APWA Excellence in Snow and Ice Control Award was established to promote excellence in the management and administration of public works snow and ice operations. To promote the best practices in snow and ice removal while minimizing environmental impacts.

Eligibility Any public works agency actively involved in snow and ice removal and operations. Public works is defined as the physical structures and facilities that are developed, owned, and maintained by public agencies to house governmental functions and provide water, power, waste disposal, transportation, and similar public services, in accordance with established public policy. APWA membership is not required. No sitting member of the subcommittee or the member's respective agency shall be eligible for the award.

No previous award winner shall be considered for a repeat award for a period less than five years.

All previous award winners will need to clearly demonstrate and will be judged on the continuous improvement of their snow and ice control program as it relates to improvements in technology, equipment, and service since they received their last award.

Selection The award winner(s) is selected by the Professional Manager and Snow and Ice Award Committee. Criteria to be used in the selection process can be found on the Supporting Data Form.

Nomination Process Nominations can be made by the managing public agency or APWA chapters. Submittal should include a nomination form and supporting documentation that clearly addresses the categories outlined on the supporting data form.

Deadline December 3, 2018 (electronic submittals only) Winner(s) announced in February.

Presentation The award winner(s) is presented with a plaque at the North American Snow Conference and featured in APWA publications.
