

**Environmental
Ecological**

WHO WE ARE

We are a woman-owned environmental consulting firm with midwestern values. We work hard and quickly, paying attention to the details, so you have the answers you need, when you need them, with results you can trust.

WHO WE SERVE

Banks • Attorneys • Developers • Engineering Firms • Environmental Consulting Firms • Municipalities • Counties • States • Federal Government • Industrial Clients • Utility Companies

WHY WE DO IT BETTER

Quality

Environmental contaminants on your property are a legal and financial liability. When you hire a consultant to identify environmental issues, you need to be confident the job will be done right. Our licensed professionals on staff have a combined total of over 50 years of industry experience to provide quality results you can rely upon.

Responsive

A3 Environmental is nimble. We communicate early and effectively. We start projects quickly and work within our client's tight schedules to produce the expected results. We deliver faster turnaround times so you can meet your deadlines.

Strategy

We get up to speed on our projects quickly to identify potential problems early. We develop strategy and provide options to create cost effective solutions drawn from our vast knowledge of previous projects and our institutional memory.
